REPORT

MOLANDS Match weights a little disappointing this week with pleasure anglers fishing into the evening having the best sport. Paste, pellet or meat fished down the near shelf is accounting for carp to 14lb, tench to 6lb and bream to 3lb along with F1's, roach and crucians. During the day a small method fished to the island with micros and ground bait on the feeder and small pieces of polony, luncheon meat or 6mm banded pellet is the best tactic for carp and skimmers. Best pegs are 2 – 8, 16 – 19, 29 – 31, 37, 44 – 46 and 54 – 60.

GEARYS Carp being caught all round the pool with plenty of those into double figures, with skimmers, crucians and tench coming out as well. Pole fished paste remains the best tactic for mixed nets fishing along the margin or up to any of the near bank features. The top tactic for carp is the straight lead with 8mm pellet fished at 20 – 30 yards out. The best pegs are 6, 9 – 12, 17 – 20, 27, 31, 32 and 36.

LITTLE GEARYS Still the most prolific pool on the complex with every peg capable of throwing up decent catches. F1's from 1 – 4lb are providing the bulk of the action but plenty of carp, tench, skimmers and crucians also showing. Method feeder to the island with meat, white mini boilies or banded pellet and paste fished down the near margin are the top tactics at the moment.

GRATUITIES The tench fishing has been excellent again this week making the pool very popular with those anglers that prefer tench to carp. Catches of up to 50 fish from 1lb – 4lb have been reported with pole fished meat or corn accounting for the better bags. Carp in the 1 – 3lb bracket, crucians and skimmers are also showing in numbers. The bigger carp are coming off the top with fish to 10lb falling to the dog biscuit.

ANNIVERSARIES The Vets match on Tuesday was won with over 60lb of tench and bream which came to the corn fished on the pole at peg 2. All around the pool mixed nets of silvers are being caught on float fished caster, pellet or maggot with plenty of anglers preferring fishing for the silver fish making the pool very popular at the moment.

SIBLINGS The gravel bar at the top end of the pool has been fishing well for carp from 5 – 10lb, fishing a small feeder from pegs 20 – 23 with pellet or meat at on the hook. Elsewhere around the pool, tench to 4lb, bream to 4lb and lots of smaller skimmers and crucians coming out to paste, pellet or caster.

PACKINGTON SOMERS FISHERY

WILLOW Another pool in top form at the moment with lots of carp from 3 – 6lb, tench, F1's and crucians showing. Bread fished on the top has tempted the bigger fish but pellet or meat fished close in has been working well for mixed catches.

BROADWATER SYNDICATE

The new lake record was caught last week at 37lb 12oz by Paul Haddon of Nuneaton who was fishing at the top end of the lake and took it on a red boilie.

There are plenty of fish from 15 – 23lb also coming out. A limited number of season tickets are available for this pool.
